Heat-retaining rollers for faster, longer-lasting curls. The fast and simple way to add volume without the need for clips and pins. Self-grip silver metallic thread smooths hair and adds shine.

### GREATER HEAT ABSORPTION & RETENTION

Ceramic roller distributes heat evenly for faster, safer drying. Set roller in slightly damp hair and apply heat from hairdryer.

### Even heat distribution

Avoids hot spots and hair damage.

### Smooth gloss finish

For added condition and shine.

### Longer-lasting curls

Leave rollers to cool in hair for better results.

# HOT CURL KIT

This Pro-Tip Ceramic Hot Curl Kit consists of four ceramic hot curl brushes which are contained in a clear drawstring bag.

The ceramic coating on the hot curl brushes ensures an even spread of heat from blow-drying, reducing the danger of hair damage through heat-spotting (when hot air is applied too close for too long).
